EDUCATION

COMPUTER SCIENCE

May 2018 - August 2022

Minor: History

GPA: 3.6

LOYOLA UNIVERSITY CHICAGO

Honors: Mulcahy Fellow, Dean's List 2019-2021
Classes: Web Development, Software Engineering, OOP Programming

WORK EXPERIENCE

ITS Service Desk

Loyola University Chicago

May 2019 - July 2020

Troubleshooted and resolved technical issues for faculty, staff, and students on Windows, macOS, and Linux operating systems by using Ivanti Service Manager, Terminal, Zoom, through personal knowledge of computers and collaboration with several different technical teams.

Associate Software Engineer

CCC Information Services

Feburary 2022-Present

Assist in the Frontend development of websites, which serve as a variety of tools for vendors. I primarily use Vue 3, using the Quasar framework, and Axios to consume internal REST APIs on a daily basis while devoloping these sites. Additionally, I collaborate with product managers and a design team using Figma for wireframes and prototyping.

ACADEMIC EXPERIENCE

Mulcahy Fellow

Loyola University Chicago/ Software Systems Laboratory

February 2020 - May 2021

Created a front-end website meant to visualize the History of Computing in a unique way, by highlighting other historical fields like the history of culture, ancient history, etc. The website was built with Next.JS/ React, hosted on Vercel, and designed partially on Figma. I managed a team of three students (in cooperation with the Loyola Software Systems Laboratory) for a majority of the fellowship and reported to a professor.

OTHER ACTIVITIES

Lead Developer

Legacy Of The Illinois Black Panther Party

October 2020 - Present

Digital exhibit with the Chicago History Museum to showcase and educate people about the legacy of the Black Panthers. Website is built using React/Next.JS, using Tailwind for styling, and Figma for prototyping and wireframes.

Vice President

Don't Panic

May 2020 - December 2021

Organized events, was responsible for most communication and co-created the main website for Loyola University Chicago's main Computer Science club on campus.

SKILLS

- React.JS
- JavaScript/Typescript
- HTML/CSS
- Vue
- Figma
- Svelte
- Node.JS

PROJECTS

History Of Computing: An Interactive Timeline

June 2021

Next.JS/React

Three.JS Snippets: VSCode Extension

June 2021

JavaScript/React ~ 2300 installs

Don't Panic: Loyola's CS Club

June 2021

Typescript/Svelte
